

2 July 1957

Memorandum for: Deputy Director of Central Intelligence

1. I have redrafted the letter to Senator Byrd and the Annexes, I believe along the lines we discussed with the Director the other evening.

2. Although no reference is made in the letter to the highly classified report, I have mentioned its existence in Annex B because the unclassified report of the Clark Task Force also referred to it in a footnote to their first recommendation.

3. I have declassified Annex A altogether, with O'Gara's approval, and have reduced Annex B to SECRET. I hate to classify it at all, but I don't see how we can be at all responsive on that basis.

25X1

MEMORANDUM FOR: GENERAL CABELL

Mr. Paul will be available whenever you have an opportunity to discuss this with him.

Incidentally, he is aware of course that if there is a classified enclosure the covering letter will require the same classification (with "downgrading" statement in event the encl. is detached). Classification has intentionally been left off the covering letter for the time being.

MEMORANDUM FOR: The Director

General Cabell has reviewed the attached and has authorized me to forward it to the Director after having made certain changes in the annexes.

Recommend signature.
